Ecological Laboratories, Inc.

www.microbelift.com

Ecological Laboratories, Inc. has been producing specialty microbial products since 1976. Our clients include some of the largest and most recognized companies in the world. Our plant is an E.P.A. and F.D.A. Registered manufacturing facility. Where required, our natural products are registered by the appropriate regulatory agency and may be used in most states. Microbe-Lift products contain nothing harmful to man, wildlife or the environment. Microbe-Lift products are among the safest products available anywhere. The benefits of Microbe-Lift micro-organisms include: clean, clear water; healthier aquatic life; and reduction of the potential for infection or fish loss.

BioSafe Systems, Inc.

www.biosafesystems.com

BioSafe Systems, LLC, the BioSecurity Company, offers environmentally friendly products that can be used for a broad range of disease control. These products are alternatives to chemicals that leave behind toxic residues that can affect the health and welfare of people, plants, animals, and our groundwater supply.

EasyPro Pond Products

www.easypropondproducts.com

EasyPro manufactures the finest quality pond, fountain, and water garden products. Having been in business since 1970, we have watched the pond and water garden industry evolve into the hottest trend in landscaping today. All of our products have been created to fill a void in the market or to improve existing products that were inferior.

AlphaBio Systems, Inc.

www.alphabiosystems.com

Aqua-One is fast becoming one of the top-selling pond and aquarium products in America and the reasons are simple. Aqua-One is likely the strongest, most complex beneficial bacterial product available. It has no odor and usually sells for less than other products. We also put a "best if used by" date on every bottle that ensures that you are getting an active, robust product. Simply put, Aqua-One works to prevent or eliminate the most common water quality problems associated with ponds and aquariums.

Nishikoi

www.nishikoi.com

Pond keepers feed their fish on NISHIKOI® because they know NISHIKOI® provides the exceptional nutrition their fish need to keep them healthy, colorful and growing to their full potential.

Winston Company, Inc.

www.winstoncompany.com

Winston Company, Inc. CrystalClear fish pond maintenance line features a very high quality and diverse mix of pond products designed to assist or remedy any problem, such as sludge or sludge treatment, a pond enthusiast may encounter. Each CrystalClear biological water treatment product label contains a quick and convenient six step process guide to make the purchasing process of pond treatment easier for consumers, while fostering repeat sales for distributors and dealers. Additionally, our discount pond supply products have easily identifiable icons, Prep, Testing, Conditioning, Balance, Solutions and Accessories so consumers can easily find the appropriate pond water treatment chemical they need for their pond. Use Crystal Clear solutions to have crystal clear water! Winston Company, Inc. has led the biological water treatment industry for over 25 years now by offering only the highest quality bacteria and enzyme solutions for municipal wastewater treatment, sludge treatment and pond treatment.

Convenience Products

www.convenienceproducts.com

Touch 'n Foam Exterior Filler-Adhesive is a black colored foam formulated to retain its dispensed color and blend naturally into the surrounding landscape, even when exposed to direct sunlight. It bonds quickly to porous or non-porous rock, stone, cement, wood and cloth and is ideal for replacing loose mortar in rock walls. Touch 'n Foam Exterior can also be used to direct water flow in pond or waterfall applications and it's safe for use around fish or plants.

Laguna

www.lagunaponds.com

Laguna is committed to innovative product development and superior customer satisfaction. Our extensive product range & incomparable quality reflects our commitment. Every Laguna product is thoroughly tested and evaluated before it is released in the marketplace. Laguna's in-house testing facility, Hagen Aquatic Research Station (HARS), is staffed with a number of highly qualified technicians and professionals who use state-of-the-art equipment to test all products. In addition, HARS consults with outside chemists, aqua culturists, biologists and veterinarians for independent development, testing and verification. Our goal is to make your water gardening experience.

Firestone

www.firestonebpe.com

Success in its roofing business has led Firestone Building Products to expand into new markets for its waterproofing membranes, including a variety of lining applications. Firestone Lining Systems are based on EPDM Geomembranes offering dependable performance for garden ponds, landscape ponds, agricultural ponds, irrigation canals, artificial snow reservoirs, landfill caps, etc. The proven performances of Firestone EPDM Geomembranes in thousands of exposed applications have made them the liner of choice worldwide.

Little Giant Pump Company

www.lgpc.com

Whether you envision a babbling brook, cascading waterfall, soothing fountain, or natural water garden pond, Little Giant has made it easy for you with our complete line of Pondworks® products and expert ideas.

Koi Care Kennel, Inc.

www.koicarekennel.com

Koi Care Kennel Inc. was founded in 1998. One of our founding principals was to distribute only the best quality pond products. In order to accomplish that goal we have tested EVERY product we offer for sale in our own koi pond. As hobbyist we have all bought products that turned out to be a waste of money. Either they didn't work at all or they performed very poorly. At Koi Care Kennel Inc. we have developed a product line that is "focused on koi health". We do not sell products like pumps, liners, or UV lights. ALL our koi health products work and work well. If a koi

health product does not work well we don't carry it, it's that simple. And our product line is expanding slowly because high quality koi health products are few and far between.

Contech Electronics

www.contech-inc.com

Innovative technology for pets and gardens.
